PROJECTS :

Go Guide Now – Tourist Guide Website

Tech Used: HTML, CSS, JavaScript, Python, MySQL, API integration

- Built a website to help users find places to visit in India in a simple, organized way.
- Used Python and MySQL for storing destination details and handling backend tasks.
- Integrated booking APIs so users can book hotels or travel directly from the site.
- Worked on both frontend and backend to make it all work together smoothly.

Innovative Word Explorer – Modern Dictionary Web App

Tech Used: HTML, CSS, JavaScript, Python, MySQL, (Planned AI Integration)

- Built a web app that updates daily with newly invented or trending words from social media.
 - Each word includes meaning, examples, and context—like a crowdsourced modern dictionary.
 - Added user features like word submissions, voting, and quizzes for engagement.
 - Created the site to solve a real-world problem: fast-changing slang not covered in regular dictionaries.
 - Targeted for students, writers, language learners, and meme lovers.
-

ACHIEVEMENTS AND EXTRACURRICULAR :

- Participated in Crossroads 2024 events.
 - 2nd place in Chemistry Project at Crossroads 2022.
 - Participated in CODEARAMBH-25 Hackathon.
 - Presented ideas at Ideathon.
 - Anchoring at college fests.
